

Thinking about retirement?

Your continuation options for Health Insurance

Many school employees are not aware of their right to continued access to health insurance is protected by the Iowa Legislature.

As long as, you are 55 years old and have 10 years of employment history as an IPERS covered employee, you have continued access to your current school's medical insurance program, at your own expense until attainment of age 65 and are Medicare eligible.

You may continue to cover any eligible dependents until you attain age 65, or they attain age 65 and are Medicare eligible, whichever comes first.
